

I have been informed that an upcoming change in the way FM is transmitted and/or received is being considered. (You know the issue under consideration - technicalities that are beyond my understanding) I am also under the impression that this change could adversely affect my favorite, wholesome, g-rated radio station - KLOVE. I wholeheartedly oppose any changes that would limit or stop the range, power, hours of operation and effectiveness of this unique and influential radio station. How rare it is for radio these days to influence people for good. Please take my concern and the concern of others like me into consideration. Thank you.

Respectfully,

Debra Supinski
